

## **WAIVER OF CLAIMS; MEDICAL RELEASE; INSURANCE**

### ***Waiver of claims***

*All national associations as well all players & coaches and their families that are participating in the ATF/ITF Camps agree, as a condition of their entry, that no claims are brought against the ITF, the camp organizers, and the regional association or national associations sanctioning such events, with respect to any injuries, however caused, or any losses incurred, while traveling to and from, or participating in this ITF sanctioned event. **It is therefore recommended that all players & coaches have adequate medical insurance cover, which cannot be provided by the ITF, the ATF, or the host national association.** Neither the ITF, nor the ATF or host national association can accept any responsibility for providing players & coaches with such insurance cover.*

*In accepting a place in the camp, the national association of the player/ coach authorizes that medical treatment can be given to any player or coach in case of emergency. It is understood that any medical treatment or travel related to leaving the camp will be the financial responsibility of the player/coach's national association.*
